Health department announces ACE Award winner

Health Officer Marcus Cheatham presents ACE Award to Mario Lucchesi, MIS Coordinator

Stanton- Mid-Michigan District Health Department (MMDHD) is pleased to announce that Mario Lucchesi, Management Information System Coordinator, was chosen by his peers to receive the ACE (Achievement, Character, Excellence) Award for the period July- September, 2014.

Lucchesi received multiple nominations and was described as someone who is flexible and always willing to drop everything to fix a technical problem.

According to Melissa Bowerman, Lucchesi's supervisor, the award is much deserved. "Mario has been instrumental in many different projects this year. He has really helped remove technological barriers that allow staff to be more productive every day. He is always willing to assist staff and his positive attitude is very refreshing."

Congratulations, Mario Lucchesi, on winning the ACE Award, and thank you for going the extra mile!

Mid-Michigan District Health Department serves the residents of Clinton, Gratiot and Montcalm Counties.
